

	4.2.4.3.2.2	Autologous sling	48
	4.2.4.3.2.2.1	Summary of evidence and recommendation for autologous sling	49
	4.2.4.3.2.3	Urethral bulking agents	49
	4.2.4.3.2.3.1	Summary of evidence and recommendations for urethral bulking agents	50
	4.2.4.3.2.4	Laser treatment	50
	4.2.4.3.2.4.1	Summary of evidence and recommendations for laser treatment	51
	4.2.4.3.2.5	Mid-urethral slings	51
	4.2.4.3.2.5.1	Summary of evidence and recommendations for mid-urethral slings	53
	4.2.4.3.2.6	Other treatments for uncomplicated stress urinary incontinence	54
	4.2.4.3.2.6.1	Summary of evidence and recommendations for other treatments for uncomplicated stress urinary incontinence	54
	4.2.4.3.3	Surgery for women with complicated stress urinary incontinence	54
	4.2.4.3.3.1	Colposuspension or mid-urethral sling (synthetic or autologous) following failed primary stress urinary incontinence surgery	54
	4.2.4.3.3.1.1	Summary of evidence for surgery in those with recurrent stress urinary incontinence following failed primary surgery	55
	4.2.4.3.3.2	Adjustable slings	55
	4.2.4.3.3.2.1	Summary of evidence for adjustable slings	56
	4.2.4.3.3.3	External compression devices	56
	4.2.4.3.3.3.1	Summary of evidence for external compression devices	56
	4.2.4.3.3.4	Recommendations for complicated stress urinary incontinence	57
	4.2.4.3.4	Surgery for stress urinary incontinence in special patient groups	57
	4.2.4.3.4.1	Stress urinary incontinence surgery in obese women	57
	4.2.4.3.4.2	Stress urinary incontinence surgery in elderly women	57
	4.2.4.3.4.3	Summary of evidence and recommendations for stress urinary incontinence surgery in special patient groups	58
	4.2.5	Follow-up	58
4.3		Mixed urinary incontinence	58
	4.3.1	Epidemiology, aetiology and pathophysiology	58
	4.3.2	Diagnostic evaluation	58
	4.3.2.1	Summary of evidence and recommendations for the diagnosis of mixed urinary incontinence	59
	4.3.3	Disease management	59
	4.3.3.1	Conservative management	59
	4.3.3.1.1	Pelvic floor muscle training	59
	4.3.3.1.2	Bladder training	59
	4.3.3.1.3	Electrical stimulation	59
