

treatment of, 706

Meningitis

bacterial, 1100

A. baumannii, 1277

clinical features of, 978, 1102

complications of, 1200

deaths from, 1105

definition of, 1100

diagnosis of, 944, 946t, 1102–1103, 1103t, S2

differential diagnosis of, 1103–1104

E. coli, 1267

enterococcal, 1200, 1201t

epidemiology of, 976, 1100

etiology of, 975t, 978, 1101

F. tularensis, 1317

global considerations in, 976

gram-negative, 1104t, 1105

H. influenzae, 1101, 1242, 1243

incidence of, 1100

increased ICP in, 1105

in infants, 1195

leptospiral, 1420

L. monocytogenes, 1101, 1104t, 1105, 1210

meningococcal, 975t, 1101, 1104–1105, 1104t, 1229

nontyphoidal *Salmonella*, 997t, 1297

pathophysiology of, 1101–1102, 1102f

pneumococcal, 975t, 978, 1101, 1104t, 1105, 1175, 1176

prognosis of, 1105–1106

prophylaxis for exposure to, 1162t

risk factors for, 978

staphylococcal, 1101, 1104t, 1105

streptococcal, 1195

T. pallidum, 1409–1410

treatment of

adjunctive, 1105

antimicrobial therapy based on pathogen, 1104–1105, 1104t, 1176, 1201t, 1243

empirical antimicrobial therapy, 947t, 975t, 1103t, 1104, 1231

ICP-related, 1105

Y. pestis, 1322
